MUNIM RAHMAN
SOFTWARE DEVELOPER

P (571) 459 0257   **E** munimrahm@gmail.com   **A** 5300 Kepler Ln, Springfield VA   **W** linkedin.com/in/munimr

OBJECTIVE

As a software developer my goal is to constantly be learning and taking on challenges. The most satisfying feeling as developer is being given a challenging task, and then completing it. My four years of experience has helped my hone in my programming, problem solving, and collaboration skills.

EXPERIENCE

Jun, 2018 – Jan, 2022
Software Innovation Intern • Telos

1st Year – Blockchain Project
- Created, tested, and maintained a blockchain instance using Hyperledger

2nd Year – Company Hub Rework
- Developed a new website for the company intranet
- Learned how to manage and develop on a GitHub repository
- Learned how to interact with different RESTful APIs

3rd Year – Security Compliance & Product API Project
- Learned about risk management framework and organization security controls
- Began development on widgets for company software

4th Year – Knowledge Base Research & Solutions Architect
- Researched knowledge base software
- Practiced working as a solution architect by interpreting business requires for development team
- Additionally worked on making small scripts for solutions

HOBBIES

Outside of work I love to… work on cars, play video games, play golf, workout, play chess, work on open-source projects, go biking, playing basketball, and many other activities.
